

WHAT

Fort Collins embraces conservation, active lifestyles and innovative solutions. In 2015, City Council set aspirational goals and updated its Climate Action Plan – a roadmap to achieve those goals - to ensure the community’s long-term social, economic and environmental health.

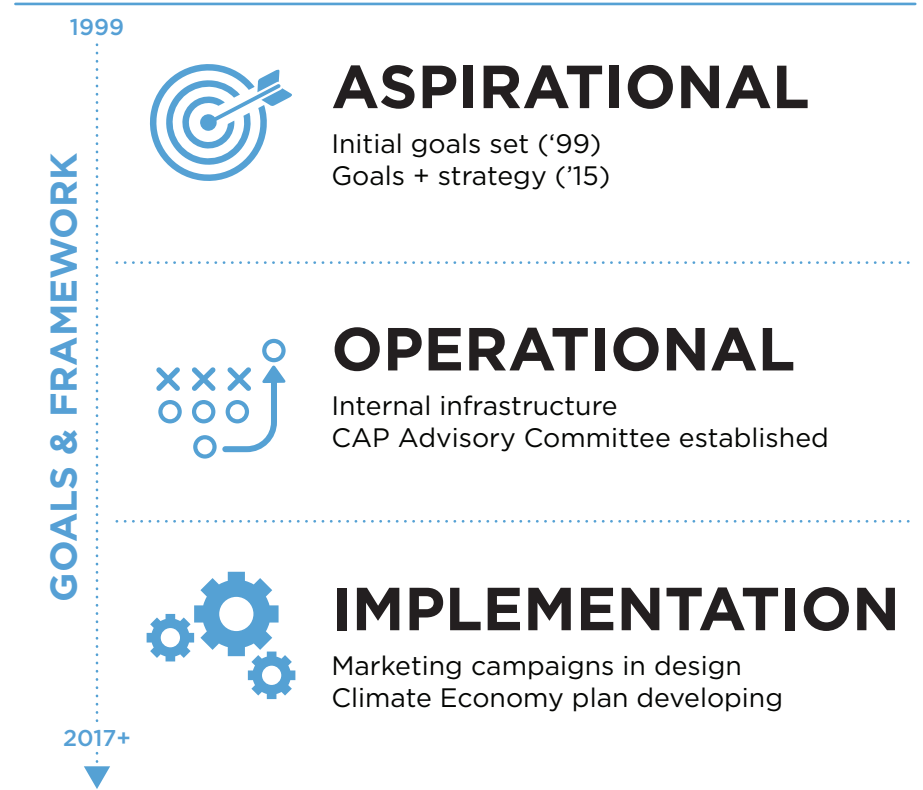

WHY

Cities are responsible for more than 70 percent of carbon emissions. While Fort Collins may not be able to solve climate change, we can be part of the solution. City Council first committed to these goals with a Climate Action Plan in 1999.

CITY’S COMMITMENT

CAP JOURNEY

KEY RESULTS

- \$** Leveraged \$12.1M in new investments by at least \$5.4M
Overall leveraging of \$2.30 for every \$1 invested
- 🏠** Energy efficiency Savings alone - **3750 homes**
- ⬇️** Additional **7% reductions** toward 2020 goal if funded in both budget cycles

LEADERSHIP AT EVERY LEVEL

* 70 municipal subject matter experts & 35 community members
